## Operations In Cambodia Termed Complete Success By President

### Seen & Heard Around Murray

Reading the other day that "Although college students have been rioting and school teachers have been striking, most public-school pupils have been obeying the law. It will take a while to educate them properly."

Our house has been in an uproar for several days. People going and coming like crazy. Wife says to us: "do you know what's going on?" and we say no. And we say just keep your cool and maybe things will slow down soon. And maybe they will.

Like the fellow who was all down in the dumps because of his hard luck and a man told him "don't worry, it could get worse", and sure enough, it did.

Do you know who is on the Supreme Court today? Well, here is a list giving the name of the justices, their age and the president who appointed them.

His family has talked with the Peace Corps and said that their son had been accounted for in the survivors of the earthquake that struck the country on Sunday.

## Bowker Home Named As Yard Of Month By Woman's Club

Mr. and Mrs. John Bowker, 1601 Keeneland, have been awarded the "June Yard of the Month" plaque in the contest sponsored by the Garden Department of the Murray Woman's Club.

## Loans Approved For Rural Electric Co.

Congressman Frank A. Stubblefield today announced a Rural Electrification Administration loan in the amount of \$667,000 to West Kentucky Rural Electric Cooperative Corporation, based in Mayfield.

The Corporation serves Calloway, Graves, Carlisle, Hickman and Marshall counties.

Congressman Stubblefield said that the loan will finance 40 miles of distribution line to serve 1,050 new consumers and it will also finance system improvements including 9 miles of new line and conversion of 29 miles of existing line and related facilities.

By EUGENE V. RISHER  
WASHINGTON (UPI) — President Nixon claimed complete success for his controversial Cambodian operations Wednesday night and announced the United States had resumed withdrawing its troops from Vietnam.

Another 50,000 Americans will be out of Vietnam by Oct. 15, he said, in a resumption of his program to reduce by half the U.S. military force there within the next year.

"I can now state that this has been the most successful operation of this long and very difficult war," Nixon told a nationwide radio and television audience.

Basing his assessments on the reports he received Sunday in California from his top field commander, Gen. Creighton W. Abrams, Nixon said the major military objectives of the Cambodian thrusts had now been achieved and all Americans, including advisers and supply personnel, will be out of Cambodia by the June 30 deadline he had earlier set.

Bombing Raids To Halt  
Bombing raids also will halt, he said, but will be resumed "if necessary to protect the lives and security of our forces in South Vietnam."

## Bible Thought for Today

All we like sheep have gone astray; we have turned every one to his own way; and the Lord hath laid on him the iniquity of us all. — Isaiah 53:6.

Wickedness is universal. God made provision to deal with sin through a sinless substitute — His Son!

## Wall Street Chatter

NEW YORK (UPI)—An important aspect of the latest rally that should be mentioned was in "investor psychology" rather than market fundamentals," Newton D. Zinder of E. F. Hutton & Co. says. Until there is a change in the fundamentals Zinder believes, "one must assume that the current rally is primarily technical in nature." He notes that no base pattern has been formed and last week's lows not tested, adding that not until one of these conditions occurs "can we look upon the current rally as the beginning of a new bull market."

Despite the favorable market conditions at the end of last week Robert P. Colin of Faulkner, Duggins & Sullivan does not believe that the advance is indicative of a "quick and facile recovery, similar to those of the 1950's and 1960's." In his view, the present "widespread social, political and economic dislocations" point to the economy and the securities markets "moving into a period of under-utilization

of resources: natural resources, labor resources and money resources."

If investors didn't take advantage of last week's rally they "shouldn't feel that they've missed the boat," the Indicator Digest says. The formation of a base capable of supporting a bull market, the newsletter believes takes weeks and even months of consolidation (and) shrewd investors wait patiently for the long-term indicators to turn favorable" during the period of consolidation. As an example, the newsletter notes that after a sharp technical rally in 1962, "a better buying opportunity appeared when the averages went to a new low that June and yet another buying opportunity occurred the following October when that low was successfully tested."

PROBABLY TOO CLEAR

## MENTAL HEALTH MATTERS

Stanley F. Yolles, M.D., Director  
National Institute of Mental Health

### Biological Clocks

Now and again the fact that our bodies have mysterious but real biological clocks, living processes that deal with time, makes news.

Our moon astronauts, for example, have had to cope with the problem of their bodies' clocks and resetting them to be in time and tune with the long voyage to the moon, the upsets to their biological rhythms of the trip, and the physical needs of the work periods on the moon.

During a moon shot, the astronauts "reset" largely by shifting around their times for sleeping, resting, and working during the journey. Their normal daily cycles of rest or sleep and being awake are thrown off, of course, just as are those of today's jet-plane travelers when they fly far and fast and change the usual 24-hour rhythm of living.

The timing of events within man's body involves a rhythmic scheduling that appears to be important to mental as well as physical well-being. This is why the National Institute of Mental Health conducts and supports an important body of basic and clinical research investigating a wide range of biological rhythm problems in both animals and humans.

Until not long ago, few instruments were available for detecting rhythmic changes in man or for analyzing the tremendous amounts of data necessary in "time" studies. The computer and electronic data systems help in handling the vast amounts of necessary data.

At Rockland State Hospital in New York and at the Uni-

versity of Minnesota, NIMH grantees have developed instruments and methods that make the study of rhythms in man's blood-chemistry feasible.

Throughout history it has been known that man showed some kind of daily cycle of activity and rest, usually called "circadian rhythm" from the Latin, "circa dies," meaning "about a day." But it is only recently that scientific interest has expanded into what is now a most promising area of mental health research.

It may turn out that the role of timing in health and illness is of critical or essential nature and, hopefully, that measures to help our biological clocks can be found. In any case, it is beginning to look as if, as one writer puts it, time is as much the tissue of our bones, blood, and brain.

### A LANDLUBBER

THORNEY, England (UPI)—Officials at a local wildlife park have traded Neptune the seal to a Bedford zoo because he is more of a landlubber than a king of the deep. Five times in the past four months Neptune scaled a five-foot-high fence around his pool and made for dry land, they said. The park received two smaller sea lions in the trade.

PERONIST VICTIM — Pedro Eugenio Aramburu (above), who became president of Argentina on the ousting of Juan Peron a decade and a half ago, was put on trial and sentenced to death by firing squad after being kidnapped by Peronists, according to word from his kidnapers. They are meeting out this fate, they say, because he ordered 35 persons executed in 1956 after his coup.

## Television In Review

Television In Review  
By RICK DU BROW

HOLLYWOOD (UPI) — Like the first talking movies, the development of long-playing records and the introduction of home television, there now comes another historic breakthrough in entertainment: The television cassette.

In effect, it is a combination of these three earlier developments. For video cassettes are long-playing films and-or visual tapes that individuals will be able to buy or rent, and then play on their own television sets by means of a small attached unit. Eventually, cassette-playing units are bound to be built in to standard television sets.

The potential of cassette-programming is staggering, and is already shaking up show business, where innermost circles concede an enormous breakthrough on the consumer level is inevitable. It is estimated that cassettes will be, at minimum, a billion dollar industry by the end of the decade.

And show business is only one phase of it. From publishing to education to self-instruction to business techniques, cassettes will be a factor to be reckoned with.

Furthermore, the technical compatibility of cassette units with the burgeoning cable television (CATV) field—both operate on the simple principle of wire connected to antenna, with no outside picture interference—makes cassettes a huge, inexpensive, natural programming source for CATV systems. And programming is what CATV needs to become a video power.

Operating on the same simple technical principle, it is entirely conceivable that, when the breakthrough is complete, apartment buildings and hotels will be able to offer films and other programs via cassettes—as airlines today present inflight movies.

Almost anything in any communications medium, except spot developments, could be packaged in cassettes. All the volumes of a standard encyclopedia, for instance, could be put on a cassette no bigger than a small-to-average-size book, with home viewers naturally able to stop at any page.

By current estimates, mass-produced home cassette units will be available possibly within several years and certainly well before the end of the decade. The first models are expensive and aimed chiefly at institutions like corporations, educational concerns and hospitals. The units are about the size of a tape deck, and all you do is connect them to the antenna outlets of your television set, and pop in your cassettes.

Today is Thursday, June 4, the 155th day of 1970 with 210 to follow.

The moon is between its new phase and first quarter.

The morning stars are Mercury and Saturn.

The evening stars are Venus, Mars and Jupiter.

On this day in history: In 1800 the finishing touches were put on the White House.

In 1896 Henry Ford wheeled his first car from a brick shed in Detroit and drove it around the darkened streets for a trial run.

In 1942 the Battle of Midway started. The Japanese fleet suffered its first decisive defeat of World War II by American forces.

In 1967 war broke out between Israel and Egypt. It lasted five days and Israel emerged victorious and in possession of much Arab territory.

A thought for the day: Roman playwright Terence said, "Nothing is so difficult but that it may be found out by seeking."

Central Press Association Correspondent  
WASHINGTON—A comparison of economic and living standards of the U.S. and the Soviet Union reveals that America is far in the lead in almost every important category. The comparison is based on information gathered by the National Federation of Independent Business, composed of more than 272,000 members, largely from 1967 data.

The differences in the general standard of living of Americans and Russians is strikingly illustrated by the disclosure that the former have 104 million telephones, 285 million radios and 78 million television sets, compared to 9.6, 81 and 23 million, respectively.

In housing, despite the great need in the U.S. for improvement, the difference between the two nations is noteworthy. The U.S. had 53 million dwellings for approximately 200 million people, whereas the Soviet Union had only 17 million housing units for more than 235 million people. As a result, more than twice as many people, on the average, occupied a room in the Soviet Union than in the U.S.

The comparative times worked by urban dwellers in New York and Moscow to purchase various commodities also reveals startling differences. Thus, the Moscowite worked last year 162 minutes to earn enough to purchase a dozen eggs, while the New Yorker did it in 17.

U.S. in 1967 exceeded the Soviet Union in steel tonnage by 127 million to 113 million; in coal tonnage, 530 million to 456 million; in crude petroleum, 3.2 billion to 2.1 billion barrels; in electrical energy, 1.3 trillion kilowatt hours to 587 billion kwh; and in manufacturing establishments, 311,000 to 44,000.

There were a few areas in which the Soviet Union exceeded the U.S., most notably in education, where the Soviets spent 7.3 per cent of their 1965 national income, compared to 6.5 per cent in this country.

Other areas in which the Soviet Union surpassed the U.S. included: food production—85 million tons of wheat, compared to 46 million; 105 million tons of potatoes vs. 15 million; 10 million tons of sugar vs. 5 million; transportation—rail traffic, 146 billion passenger miles compared to 15 billion. However, in automobile-truck production, the U.S. surpassed the Soviet Union 9.3 million to 603,000; industrial production—cement, 99 million vs. 71 million tons; iron ore, 99 million vs. 55 million tons; and wool yarn, 310,000 vs. 208,000 tons.

# Murray Coach Heads U.S. Team in Jamaica

MURRAY, Ky. — Bill Cornell, Murray State University track coach, has been chosen to coach the American track team at the Jamaican National Championships this weekend at Kingston, Jamaica.

THREE MURRAY State trackmen, Tommy Turner, Ashman Samuels, and Randy Smith will participate in the meet. Turner and Samuels will

run the 400 meter dash, and Smith the 100 and 220 yards dashes.

Turner was ranked the second best 400 meter man in the world last year after placing second in the National Athletic Union meet and running on the American team which competed against Russia and the British Commonwealth in Los Angeles and in a series of meets in Western Europe. He has twice finished second in the 600-yard dash in the NCAA Indoor National Championships and was fourth two years ago in the NCAA Outdoor 400 meters.

He has qualified this season for the NCAA outdoor national championships in both the 220 and 440 and he, along with Samuels and Smith, are members of the Murray State mile relay team which has also qualified for the national meet.

SAMUELS AND Smith, both natives of Jamaica — Samuels from Kingston and Smith from Montego Bay — are

sophomores at Murray State. Smith ran on both the mile

and 440 relays at Murray which won Ohio Valley Conference championships as well as several other championships during the season. He also placed in both the 100 and 220 dashes in the conference meet.

Samuel, in addition to running on the mile relay, ran the 440-yard dash and finished third in the conference meet.

Cornell has been coach at Murray for three seasons and has guided Murray to two straight conference cross-country championships and to two second places and one third place finishes in the conference track meet.

A NATIVE of England, he ran track at Southern Illinois University and while there finished second in both the mile and half mile in NCAA meets. He represented the Great Britain track team in the European Games in 1962.

## Dyer Named MTSU Coach

MURFREESBORO — Hal Dyer, defensive backfield coach at Xavier University, has agreed to join the football coaching staff at Middle Tennessee State University in an announcement released by Athletic Director Charles M. Murphy.

Dyer served as director of recruiting and defensive coordinator at Xavier, which finished fifth in the nation among major colleges in pass defense in 1969. He is well known in coaching circles for his recruiting ability and organization.

Prior to his post at Xavier, Dyer coached two seasons at Pratt Junior College in Kansas where his teams gained national recognition for their defensive play. Pratt finished No. 1 in their league in rushing defense, passing defense and total defense, with three of their players gaining All-American recognition.

Dyer was an assistant coach at Florida State for three years after a successful five-year stint in the high school coaching ranks in Miami. He received both his B.A. and M.A. degrees from FSU.

## Martin Gollers Set To Play In Big Meet

MARTIN, Tenn. — Plans have been completed for The University of Tennessee at Martin golf team to compete in the NCAA National College Division Championship golf tournament to be played at Youngstown State University, Warren, Ohio, June 16-19.

According to Vol Coach Grover Page, the team will depart by car from Martin on June 13 and will play practice rounds over the Avalon Lakes and Avalon Golf Course June 14 and 15.

The Vol linksmen, champions of the Volunteer State Athletic Conference for the second consecutive time and runnerup in the Tennessee Intercollegiate Athletic Conference tournament, will be headquartered at the Avalon Inn, Old Sharon Highway, Warren, Ohio 44482.

Members of the U-T Martin team are Cecil White and Roger Cooksey of Memphis, Jimmy Knott and Lynn Harpole of Trenton, Ray Scott of Savannah and Tommy Stacks of Augusta, Georgia.

The Vols finished ninth in the nation in last year's NCAA tournament played in Albuquerque, N.M.

By MILTON RICHMAN

UPI Sports Writer

NEW YORK (UPI)—Clyde King concedes he's a sensitive man.

He's sensitive enough to be moved by some of the little things people do.

The day after he was bounced by the San Francisco Giants he came out of Candlestick Park to pick up his gear before going back home to Goldsboro, N.C., and when he did Clyde King saw and heard a few things that moved him.

Among the things he saw were some of the Giants' office help with tears in their eyes when he came in to say thanks and goodbye to them. One of the ladies in the office, caught up in the moment of the moment, suddenly blurted out: "You're just too good for this

organization!"

Clyde King was a little embarrassed by what the woman said. But he was also moved.

Owner Waits For King

When the Giants blew an eight-run lead to San Diego and lost, 17-16, in 15 innings at Candlestick Park, owner Horace Stoneham was waiting for King in the clubhouse after the ball game. Stoneham doesn't come to the clubhouse often so King didn't know what to think. He thought the Giants' owner had come to tell him about a trade. Horace Stoneham hadn't come to tell Clyde King about any trade.

"I have bad news," he said. "We've decided to make a change. Charlie Fox is the new manager."

"You're kidding, Horace," said King.

"No," Stoneham assured him. "We feel if we make this change it might help the club."

Taking Things Easy

Clyde King, is taking things easy in Goldsboro. He plays golf and already has turned down two attractive offers in private industry because he plans to get back into baseball.

Before he even left Candlestick Park on May 23, the day he was fired, King got a telephone call from a major league club asking him not to take any job before talking with them first. When he came back to clean out his locker the following day there was a second call from another club.

"I told them both Mr. Stoneham had asked me to remain in the organization," King says. "He said I should go home, rest for a week or 10 days, and then we'd talk about something permanent in the organization. I'm going to call him in another day or so and see what he has in mind."

## Tom Bogs' Next Fight With Griffith

Tom Bogs, a handsome Dane who never has lost a fight, will face his toughest opponent in Emile Griffith, former World Welter and Middleweight champion, in a 12-round match tonight.

Bogs, No. 3 in the rankings, hopes to advance to a title fight with Nino Benvenuti, current middleweight king, who will be at ringside.

For Griffith, 32, this could be his last chance to earn another shot at Benvenuti, who has beaten him in two of three championship bouts.

All of Bogs' 55 fights have been victories except for a controversial draw with Don Fullmer of West Jordan, Utah, in Copenhagen Feb. 12. After the Fullmer fight, the outraged customers, who thought the American had won, booed the referee.

## San Diego First In Baseball Draft

NEW YORK — San Diego gets first pick in the annual summer baseball free agent draft of high school and college graduates and 21-year-old unsigned athletes to be held today and tomorrow at the Americana Hotel.

Commissioner Bowie Kuhn, who has been occupied recently with the Curt Flood \$3 million antitrust suit in Federal Court, will conduct the meeting which could shape the baseball future of over 1,000 men.

This draft of free agents, replacing the wild bonus scramble that existed in earlier years, has been in operation since June 1965 and is conducted twice a year. The record number of players drafted was 1,169 in June, 1967. Last June, the 24 clubs selected 1,147 players, of whom 611 signed pro contracts.

# Mrs. Julia Lovins, Psychiatric Social Worker, Relates Part Of Experiences As Worker At The Mental Health Center

By Lochie Christopher

Many times people of Murray ask what does the Murray Mental Health Center really do. The following paragraphs are from Mrs. Julia H. Lovins, a psychiatric social worker, who works at the Murray Mental Health Center.

One pat answer to the question could be to help others to help themselves. Another answer could be to help individuals and families to better cope with life and their problems through gaining a better understanding of themselves and consequently, the way they relate to others.

However, the inner turmoil and feelings of despair, hopelessness, anxiety, and fear cannot be handled or treated so easily. Each individual is unique and possesses his (or her) own set of ideas, attitudes, expectations, conflicts, and feelings about himself. It is through the therapeutic relationship that problematic attitudes and feelings are sorted out, evaluated, and hopefully resolved to a more acceptable level of understanding.

A variety of emotional problems are seen at the Mental Health Center. Individuals experiencing acute anxiety (feelings of intense tension, turmoil, and fear) and depression are the most frequent types of problems. Other problem areas include marital maladjustment, parent-child difficulties, alcoholism and drug abuse, psychosis, school adjustment problems, psychological evaluation, religious conflicts, and sexual difficulties.

With each of these types of problems, the ultimate goal is to help the individual, the couple, or the family to reach a more satisfying way of living. There is no magic wand at the Mental Health Center. The question is frequently asked—What good will talking do? Perhaps, it will do no good, that is, unless the person is willing to look at himself, to gain a better understanding of his situation, and to make a real effort toward developing different patterns or accepting existing ones.

To be more specific about what happens at the Murray Mental Health Center a situation is described. The individual has given her permission to have her story told, but the name has been changed. The situation has been greatly summarized and cannot adequately portray the personal agony and suffering experienced by the individual involved.

Betty is an intelligent, attractive woman in her mid-twenties. She was referred by another community agency due to feelings of depression. Betty feels unsure of herself and experiences feelings of loneliness, unhappiness, fear, and futility of living. Betty had made several suicidal attempts in the past because she felt no reason to live. She dropped out of high school and had developed no particular work skill.

Betty recognized the discomfort she was experiencing and recognized her need for help. She had been reluctant to share with friends her contacts at the Mental Health Center, but lately, she has been able to overcome these attitudes of stigma.

Because of her uncertainty about herself, Betty did as others told her, even though she might have wanted something different. She took off of others and bottled up so much anger that she unexpectedly exploded on occasion.

Afterwards she felt guilty about her inappropriate actions. Betty is being seen weekly. Gradually, she is gaining a different— and better— attitude about herself. She is beginning to express her own opinions and to deal more realistically with others. She is having fewer emotional outbursts and has started working. Betty has made slow progress but continued support and understanding are needed.

Stories such as this could be

Mrs. Julia Lovins

repeated over and over. There have been 134 different individuals and families seen at the Murray Mental Health Center from July 1, 1969 through April 30, 1970. Contacts have varied and depend upon the individual situation.

Emotional illness is an illness. A person with a high fever or any other physical problem has no question about seeking professional help from a doctor. The same should be true with an emotional problem. Early diagnosis and treatment can prevent a more serious problem from developing.

Our community needs a greater understanding of emotional illness and more emphasis on prevention. Courses in family life education, including preparation for marriage; mental health; and drug and alcohol information are needed in the schools, churches, and civic groups. The individual suffers greatly with an emotional illness; but, the community, employers, and business firms also suffer economically from an emotional problem creates job inefficiency, absenteeism, and accidents.

Betty is continually gaining emotional strength. However, if we are to continue helping the Betty's, and the Tommy's of tomorrow, continued community support is vital. Our present program is funded basically through a progressively decreasing Federal grant, with additional financial support from state, local and philanthropic groups, and patient fees. With each annual reduction in federal grants, it is becoming necessary to gain more local support. Unless this support is achieved, our community is in danger of losing this comprehensive service.

Support the Murray Mental Health by buying a ticket to the Charity Ball. It will be held this Saturday, June 6 at the Calloway County Country Club, from 9 p.m. to 1 a.m.

Tickets may be purchased from Mrs. Clegg Austin and Mrs. O. B. Boone, Jr., or any member of the Murray Woman's Club. Table reservations should be made by contacting Mrs. Don Henry or Mrs. Ted Bradshaw.

## Miss Vicki Hopkins Completes Plans For Her Wedding

Miss Vicki Hopkins, daughter of Mr. and Mrs. Joe Dee Hopkins, has completed plans for her wedding to Dale Hughes, son of Mr. and Mrs. Wilson Hughes.

The ceremony will be read by Rev. Willie Johnson on Saturday, June 6, at seven o'clock in the evening at the Flint Baptist Church. Mrs. Cindy Carroll will be the pianist.

Miss Vicki Hopkins, twin sister of the bride-elect, will be the maid of honor. Bridesmaids will be Mrs. Connie Jones and Miss Patsy Hopkins, both sisters of the bride-elect.

The bestman for Mr. Hughes will be Ken Thomas. Groomsman will be Larry Bell and Danny Ross. Ushers will be David Smotherman and Gary Lamb. Miss Teresa Knight will preside at the church register.

All friends and relatives are invited to attend.

## BIRTHS

Mr. and Mrs. Bobby McDowell, 805 North 17th Street, Murray, are the parents of a baby boy, David Anthony, weighing six pounds 14 ounces, born on Monday, June 1, at the Murray-Calloway County Hospital.

Their other children are a daughter, Anita, age eighteen, and a son, Dwight, age eight. The father is manager of the Murray State University Book Store.

Grandparents are Mrs. Essie McDowell of Providence and Mr. and Mrs. Bennett Belt of Route Three, Madisonville.

## Bridal Brunch Held At Holiday Inn For Miss Parker

Miss Patricia Ann Parker, bride-elect of Loren Green was honored at a bridal brunch at the Holiday Inn on Friday May 29, at ten-thirty o'clock in the morning.

The gracious hostesses were Mesdames Aubrey Hatcher, Stanford Hendrickson, Ralph Tesseene, and A. G. Wilson.

An oriental atmosphere was created by the decorations used by the hostesses. Each table was centered with an arrangement composed of a Japanese vase containing pink garden flowers and roses, flanked by pink and white Japanese fans. Pink and white satin ribbons wound gracefully the entire length of the tables with pink and white Japanese fans interspersed. Each guest's place was marked with a white card decorated with a miniature Japanese fan.

Miss Parker chose to wear a pastel pink and white two piece knit dress. Her mother, Mrs. V. W. Parker, wore a red and white knit dress with red accessories. Mrs. George Green, mother-in-law to be of the honoree, wore a pastel blue double knit dress. Mrs. Katie Green, grandmother of the groom-elect, wore a dainty blue floral dress. All received hostesses' corsages composed of white miniature pom-poms on small Japanese fans with pastel ribbons.

A delicious and attractive fruit plate and dainty blueberry muffins were served to sixteen guests. The hostesses' gift was two place settings of china in the honoree's chosen pattern.

## Special Dinners Given At Churches In Los Angeles For Area Elderly Persons

By KATHLEEN KEUMEYER

LOS ANGELES (UPI)—In the shadows of new high-rise office buildings and expensive apartment buildings, some 20,000 elderly persons are living in the central part of this city as they do in most big cities.

They live in one-room apartments and rooming houses on small incomes from welfare, Social Security, or pensions.

There aren't many grocery stores in the area. Most of the rooms do not have stoves. Area restaurants which serve well-balanced meals are neither out of their price range or are open only for the luncheon traffic from office workers.

So the elderly persons live on tea and toast.

## Mrs. Frank A. Stubblefield Initiated Into Chapter M Of The PEO Sisterhood

Mrs. Frank Albert Stubblefield of Murray and Washington, D. C., was initiated into Chapter M of the P.E.O. Sisterhood Monday evening, June 1. The called meeting, for initiation and for Convention of Kentucky State Chapter reports, was held in the home of Mrs. A. H. Titzworth, Olive Blvd.

Taking part in the ceremony were the following officers: Mesdames Henry McKenzie, John Quermous, Maurice Christopher, Olga Freeman, Paul Sturm, W. J. Pitman, and Titzworth.

The president, Mrs. McKenzie, presided and Mrs. Pitman, chaplain, gave the devotion from Psalms 46. Regular reports were given by other officers. Mrs. McKenzie announced that state officers would be present July 11 for annual inspection.

Assisted by Mrs. Alfred Lindsey, Jr., retiring state treasurer, and Mrs. McKenzie, newly elected recording secretary on the State Executive Board, Mrs. Hugh Oakley, delegate, presented convention highlights. She displayed programs and mementos from the annual meeting held May 18-19 at Imperial House, Lexington, Chapter N, hostess. State convention, May 13-14, 1971, will convene.

## Campbell Home Is Scene Of Meeting

The Jesse Ludwick Circle of the First Presbyterian Church met in the home of Mrs. Vernon Campbell on Tuesday, June 2, at one-thirty o'clock in the afternoon.

Mrs. Charlie Crawford continued the study of the book on "The Ministry of the Laity" with the subject being the "Christian Style of Life". An open discussion followed.

The devotion on "Love" was given by Mrs. Otis McNeils. Mrs. Campbell, chairman, opened the meeting with prayer and Mrs. Henry McKenzie closed with prayer.

Refreshments were served to the eight members present.

A new canister-type vacuum cleaner is constructed of seven replaceable units. Should any part become defective, it can be replaced by the housewife right in her home, or by one of the manufacturer's without the usual repair shop delays. (SCM Shetland-Lewyt, New York).

Dear Abby

## Handicapped people can lead useful lives

By Abigail Van Buren

DEAR ABBY: Someone wrote to you a while back saying he had had polio as a child and was left with a limp. He complained that he couldn't dance or participate in sports—that life had dealt him a dirty deal. This hit pretty close to home, as I, too, had polio when I was a child. I lived in an iron lung for 7 months, and was left with more than a "limp," but that's where the similarity ends, as I am not complaining.

It's easy to sit back and say, "Life dealt me a dirty deal . . . I don't have a chance, I'm handicapped." That's just not true. I fought my way back with guts, therapy and faith in God. My advice to handicapped people is to do the best you can with what you have left. Don't feel sorry for yourself. The sooner you quit thinking of yourself as "handicapped" the sooner others will.

Of course there are many things I can't do, but there are still plenty of things I CAN do. I can SEE, and I can THINK, and I can make myself understood!

I honestly believe that I am a better person for having had to bear this extra burden. It has made me try a little harder, and it has helped me to understand the problems of others.

I am a grandfather now, and I thank God I didn't just sit back and say, "I can't do that—I'm handicapped, you know!" What a lot of living I would have missed.

FOUGHT—AND WON

Chicago wearing a button which said, "KISS ME, I'M POLISH." Could I have been mistaken? HERMAN

DEAR HERMAN: Yes. It could have been Milwaukee.

DEAR ABBY: The men in our family are faced with a problem. My mother feels we should stand-up when a lady enters the room. She says it's good manners. My brothers and I feel it is completely unnecessary and should be abolished.

Do you agree or disagree? If you disagree with us, could you please tell us why a man should stand up when a lady enters the room and why it was ever started?

ROBERT [age 15]

DEAR ROBERT: It was probably started as a way of offering a lady her preference of a place to sit. It's a small [but I think, important] courtesy and enables the lady to identify a gentleman.

DEAR ABBY: I want very much to remember someone [a very wonderful woman] in my will, but it presents a problem. People [her family as well as mine] will wonder "why?" Is there some way of remembering her "privately?"

## DOWN CONCORD WAY

By Estelle Spiceland  
May 28, 1970

I sat down on my back porch today to relax a few minutes, and I wished that all over the world life could seem as beautiful.

I could hear the hum of tractors in gardens, and the whir of lawn mowers at neighbors' homes, and in the trees birds were singing while from the near by school came the voices of children.

Instead of the fly in the ointment, though, there were mosquitoes to annoy.

Helicopters have surely quit spraying the waters for mosquitoes. We prefer DDT to these pests. I realize much is said about pollution these days, but land, as well as water, is being polluted by garbage being dumped, and beer cans littering the highways.

Recently a page of the Ledger & Times was given to pictures of the Land Between the Lakes. I could imagine how these pictures revived memories for the displaced people who had lived there.

I could remember well my years in Stewart County. I thought the first night I saw a light sweeping backwards and forwards across the front windows of the little house we called home that the world might be coming to an end. I was relieved to find that a steamboat in the Cumberland River was searching for the landing "down in the bottom."

I have not visited the Conservation Education Center (tho I have seen the four baby buffalo now near Model) but my years between the rivers were educational, and if at the Empire Farm there is a corn sheller on display, I could demonstrate how we used to shell a "turn" of corn for the chickens and for meal, for I have "gone to mill" at Model many times.

And if there's a big black kettle, I know it was used for boiling clothes, making lye soap, or heating water at hog killing time, or cooking lard.

I took "Scenic Walks" too, going to the pasture for the cows, looking for beds of baby pigs, picking berries, or visiting kindly neighbors on wooded trails. How I wish TVA had kept one country church for reunions and for tourists' spiritual education there.

We are sorry to hear that Mrs. Nancy Hicks, now of Murray, has recently fallen and broken a hip. Durwood Edwards is back in the hospital again, we hear, and so many others. We do hope they will soon be well again.

Guy and Annie Lovins who have been patients in past months are appreciating being able to pick strawberries to give disabled neighbors. And the little farm of those two bachelor brothers who raise strawberries to see near Pottertown is as interesting a place as the scenic places Between the Lakes.

Congratulations to Carrie and Robert Bucy, grandparents of a new baby girl, Belinda, born to Linda and Bill Swartz of Michigan.

Mr. and Mrs. Vuron Elkins have moved from Concord to Murray near Frank McCuiston. Opal Moody lives on 8th Street instead.

Mr. and Mrs. Warren Patterson have moved from their Concord Grocery apartment to their house where the late Dean Lockes lived.

WHEREAS, it is advantageous and to the best interest of all concerned that the City of Murray (hereinafter referred to as the City) construct a new High School Building upon property which has been conveyed to the City by the Board of Education of the Murray Independent School District (hereinafter referred to as the Board), said property being hereinafter more particularly described, and that said proposed new school building be used and occupied for school purposes by said Board, pursuant to a Contract, Lease and Option, as hereinafter provided, and

WHEREAS, the Board has tendered to this Common Council a Deed conveying to the City the site of said proposed new building, and

WHEREAS, the City, acting by and through its Common Council, desires to provide funds, as hereinafter set out, to finance the cost of said construction, and the plans and specifications have heretofore been prepared and filed in the office of the City Clerk and have been approved by said Board of Education and by the State Superintendent of Public Instruction, pursuant to KRS 162.160, and contracts for said new building have been fully awarded, to be secured by 100 percent performance bond, executed by responsible, approved surety, and

WHEREAS, said Board in a Resolution adopted on May 26, 1970 (the "Board Resolution") has agreed to use and occupy the school building so to be constructed, pursuant to the terms of the Contract, Lease and Option hereinafter provided, which instrument has been examined and is now found and declared to be in conformity with statutory requirements, including KRS 162.140; and in order to pay the cost of said construction, it is necessary that the City authorize, issue and sell \$1,500,000 of City of Murray School Building Revenue Bonds, dated June 1, 1970 (which amount of Bonds has been approved by the Kentucky Department of Education), all pursuant to and as permitted by KRS 162.120-290.

NOW, THEREFORE, THE COMMON COUNCIL OF THE CITY OF MURRAY, KENTUCKY, DOES ORDAIN AS FOLLOWS:

1. The Deed tendered by the Board of Education of the Murray Independent School District, hereinafter referred to as the Board, is hereby accepted, and the Contract, Lease and Option, also tendered to the City by said Board, having been examined, considered and approved by this Common Council, the execution of both of which instruments was approved by said Board by Resolution duly adopted at a meeting held on May 26, 1970, the Mayor and the City Clerk are authorized and empowered to execute said Contract, Lease and Option on behalf of the City of Murray, and said instruments and the aforementioned Resolution of the Board authorizing same, are hereby approved and made a part hereof.

2. That for the purpose recited in the preamble hereto, there shall be and there are hereby authorized and ordered to be issued and sold the negotiable City of Murray School Building Revenue Bonds in the aggregate principal amount of One Million Five Hundred Thousand Dollars (\$1,500,000), dated June 1, 1970, consisting of three hundred (300) Bonds of the denomination of \$5,000 each, numbered 1 to 300, inclusive (said Bonds and the appertaining coupons being hereinafter sometimes collectively referred to as the "Bonds").

The numbering, maturities and principal and interest requirements of said \$1,500,000 of Bonds, based on a tentatively anticipated interest rate of seven and one-half percent (7½ percent) per annum, for the respective fiscal years from December first of each year to November 30th of each respective ensuing year, shown as the requirements for the year preceding the principal maturity date ending December 1st of each respective year, are as follows:

Said Bonds shall bear interest from June 1, 1970, payable semi-annually on the first days of June and December of each year, both principal and interest being payable at the Bank of Murray, Murray, Kentucky, and Bonds maturing on and after December 1, 1980, numbered 50 to 300, inclusive, shall be subject to prior redemption on and after June 1, 1980, in accordance with the provisions contained in the bond form set out in Section 4 hereof.

3. Said Bonds shall be executed on behalf of said City with the reproduced facsimile signature of the Mayor, and the reproduced facsimile signature of the City Clerk, and the interest coupons attached to said Bonds shall be executed with the reproduced facsimile signatures of said Mayor and said City Clerk; and said officials, by the execution of appropriate certifications shall adopt as and for their own proper signatures their said respective facsimile signatures. Said Bonds, together with the interest thereon, shall be payable only out of the "City of Murray School Building Bond and Interest Redemption Fund of 1970," hereinafter created, and shall be a valid claim of the holders thereof solely against said fund and against the income and revenues of the school building property herein referred to, including the appurtenances thereon.

4. The aforesaid authorized issue of Bonds in the amount of \$1,500,000, and coupons, shall be in substantially the following form:

UNITED STATES OF AMERICA  
COMMONWEALTH OF KENTUCKY  
COUNTY OF CALLOWAY  
CITY OF MURRAY  
SCHOOL BUILDING REVENUE BOND

NO. \_\_\_\_\_ \$5,000.00  
KNOW ALL MEN BY THESE PRESENTS:

That the City of Murray, Kentucky, for value received, hereby promises to pay to the bearer hereof, solely from the special fund hereinafter identified, the sum of FIVE THOUSAND DOLLARS (\$5,000.00) on the first day of December, 19\_\_\_\_, and to pay interest on said sum from the date hereof at the rate of \_\_\_\_\_ percent per annum, payable semi-annually on June first and December first of each year until paid, beginning December 1, 1970, except as the provisions hereinafter set forth with respect to prior redemption may be and become applicable hereto, such interest as may accrue on and prior to the maturity of this Bond to be paid upon presentation and surrender of the annexed interest coupons as the same severally mature, both principal and interest being payable, without deduction for exchange or collection charges, in lawful money of the United States of America, at the Bank of Murray, Murray, Kentucky.

This Bond is part of an authorized issue of One Million Five Hundred Thousand Dollars (\$1,500,000) principal amount of Bonds (said Bonds and the appertaining interest coupons being hereinafter sometimes collectively referred to as "the Bonds") or as "these Bonds") authorized

of their maturities (less than all of a single maturity to be selected by lot) on any interest payment date falling on or after June 1, 1980, upon payment of face amount plus all accrued interest evidenced by interest coupons maturing on and prior to the redemption date, plus a redemption premium expressed in terms of a percentage of the face amount of the Bonds called for redemption, as follows:

3 percent if redeemed on or after June 1, 1980, and on or before December 1, 1984;

2 percent if redeemed thereafter and on or before December 1, 1989; and

1 percent if redeemed thereafter and prior to final maturity.

In the event that any of said Bonds are called for redemption as aforesaid, notice thereof identifying the Bonds to be redeemed shall be given by publication at least once not less than thirty days prior to the redemption date in a newspaper of general circulation throughout Kentucky.

All of said Bonds as to which said City reserves and exercises the right of redemption and as to which notice as aforesaid shall have been given, and for the redemption of which, upon the terms aforesaid, funds are duly provided, will cease to bear interest on the redemption date. Notice of such redemption may be waived with the written consent of the holder(s) of the Bond(s) so called for redemption.

This Bond and the coupon or coupons attached hereto shall pass by delivery.

This Bond is exempt from taxation in Kentucky.

It is hereby certified, recited and declared that all acts, conditions and things required to exist, happen and be performed precedent to and in the issuance of this Bond, do exist, have happened and have been performed in due time, form and manner as required by law, and that the amount of this Bond, together with all other obligations of said City, does not exceed any limit prescribed by the Constitution or the Statutes of the Commonwealth of Kentucky; that the City, so long as this Bond and the issue of which it forms a part remain outstanding, shall perform all duties imposed upon the City by the Constitution and Statutes of Kentucky, including the taking of all legal steps necessary to produce annually for the Board of Education of the Murray Independent School District a sum sufficient to enable the Board to pay the rental charges required for the use of such school building property; and that such rental charges have been pledged to and will be set aside into a special account into the treasury of said City in an amount sufficient to pay the principal of and interest on this Bond and the issue of which it is a part and when the same become due.

IN WITNESS WHEREOF, said City of Murray in the Commonwealth of Kentucky, has caused this Bond to be executed on its behalf with the duly authorized reproduced facsimile signature of the Mayor of said City and the reproduced facsimile signature of the City Clerk, and the coupons hereto attached to be executed with the duly authorized reproduced facsimile signatures of said Mayor and said City Clerk, and this Bond to be dated the first day of June, 1970.

5. From and after the time of completion of construction of said school building, which is estimated to be on or before August 1, 1971, the new school building property, sometimes hereinafter

referred to as the "property," on the "school building property," shall be operated, leased, rented and occupied as a revenue-producing undertaking on a fiscal year basis, commencing on December first of each year and ending on November 30th of each respective following year, except that the first fiscal period shall be from August 1, 1971, to November 30, 1971; and on that basis the income and revenues from the aforesaid Contract, Lease and Option with the Board, shall be set apart into a separate and special fund to be used for the retirement of the aforesaid Bonds and coupons, and for the purpose of providing for the maintenance, operation, insurance and depreciation of said property, as follows:

There shall be and there is hereby created an account to be known as the "City of Murray School Building Bond and Interest Redemption Fund of 1970" (hereinafter called the Bond Fund), to be deposited with the payee bank of said Bonds, into which there shall first be set aside from the proceeds of the sale of the Bonds, the amount received from the purchaser representing collected accrued interest, plus an additional amount sufficient (when added to said collected accrued interest) to provide for interest which will accrue and become due (on December 1, 1970, and on June 1, 1971) during the estimated period required to complete the construction of said school building, and there shall be set aside into said fund from the gross income and revenues of said property and from the aforesaid capitalized interest, not less than the annual principal and interest requirements (set out in the table in Section 2 of this Ordinance) if said \$1,500,000 of Bonds are sold to bear interest at the rate of 7½ percent per annum, in ample time, to pay the interest on and principal of said Bonds as same fall due, which amounts are hereby exclusively pledged to and shall be used only for the purpose of paying the interest on and principal of said Bonds as and when they mature.

If said Bonds are sold to bear an interest rate or rates other than at said tentatively anticipated interest rate of 7½ percent per annum, said figures shall be automatically adjusted accordingly to such sums as will accomplish the purposes set forth in this section.

In any event, there shall be set aside into said fund and there shall be pledged such amounts (and at such times) as may from year to year be necessary to meet the principal and interest requirements of all of the outstanding Bonds.

If, in any year, the City shall, for any reason, fail to pay into said Bond Fund the full amount above stipulated, then an amount equivalent to such deficiency shall be set apart and paid into said Bond Fund from the first available gross income and revenues of said school building property for the following year or years, and same shall be in addition to the amounts otherwise herein provided to be so set apart and paid during such succeeding year or years.

All moneys held in said Bond Fund as aforesaid shall be deposited in the Bank of Murray, Murray, Kentucky. Said Bank shall invest for the benefit of said Bond Fund such portion of said fund as is designated by the Chairman and/or the Secretary of said Board of Education in United States Government obligations or in Certificates of Time Deposit (secured, to the extent of amounts in excess of the amount insured by the FDIC, by a pledge of an equivalent amount of United States Government obligations) of said payee bank, maturing as same will be needed for meeting interest and/or principal payments, and any of such funds (in excess of the amount insured by the FDIC) not so invested shall be earmarked and secured by a pledge of an equivalent amount of United States Government obligations until expended, as required by KRS 66.480. Interest earned on such investments shall be credited to the Bond Fund and applied to the purposes thereof.

The annual payments so required shall be made in ample amounts, in such installments and at such times, at least two weeks before the maturities of the respective interest coupons, as needed to meet the principal and interest requirements on said Bonds. Said Bond Fund, as next herebefore provided, shall be used solely and only, and is hereby pledged, for the purpose of paying interest on and principal of the Bonds authorized herein, as same become due.

6. The balance of the income and revenue remaining after the aforesaid payments into the Bond Fund have been made, shall be set aside into a maintenance, operation and depreciation fund and used for the maintenance and operation of said school building property and to pay the cost of

insuring said property against loss or damage by fire, windstorm or other calamity in an amount substantially equal to either at least the amount of the Bonds at any time outstanding, or to the maximum insurable value of the school building located thereon, whichever is less, and to balance depreciation in said school building. Such insurance shall be for the use and benefit of the holder or holders of any Bond or Bonds.

7. If the building on said premises is damaged or totally destroyed by fire, windstorm or other hazard covered by insurance, the City shall have the right to expend such insurance proceeds to restore the damaged property. If such proceeds are not expended by the City for such restoration at the earliest practical date, then all of such insurance proceeds shall be used at the earliest possible time for the purpose of redeeming said outstanding Bonds, and said property thereby released from any lien shall then be and become the property of the Board, in which case the City shall convey said property to the Board free and clear of all encumbrances. In the event of damage or partial destruction by fire, windstorm or other hazard covered by insurance, the proceeds of such insurance shall be used solely and only for the purpose of making the necessary replacements and repairs to said building and appurtenances thereto, provided that if, following such partial or complete destruction, any principal or interest payment is due and there are no other funds available for said payments, such insurance proceeds must be applied first to the defaulted payment(s).

8. It is the declared intention of the City to continue to lease said school building property to said Board of Education (or its successor) for an extended period of years as provided in the Board Resolution and as provided in the Contract, Lease and Option approved in Section 1 hereof.

9. The City hereby covenants and agrees with the holder or holders of the Bonds herein authorized, so long as any of said Bonds are outstanding and unpaid, as follows:

A. That the City will faithfully and punctually perform all duties with reference to said school building property which are required by the Constitution and laws of Kentucky, including the taking of all legal steps necessary to produce annually for the Board a sum sufficient to enable the Board to pay the rental charges payable by the Board in connection with said property, the segregation of the revenues of said property and the application of same to the respective purposes created by this Ordinance.

B. That the City will perform all duties imposed upon it by the Constitution and Statutes of Kentucky and by this Ordinance in relation to maintaining, operating and insuring said school building property (or causing same to be insured) and providing for the depreciation of said property.

C. That the City will maintain said school building property (or cause same to be maintained) in good condition and will charge and collect sufficient rents for the use of said property so that the gross revenues will be sufficient at all times to provide for the payment of the interest on and the principal of the Bonds, and as when same become due, and to pay the cost of maintenance, operation, insurance and depreciation of said property, all as herebefore provided.

D. That the City will not sell, mortgage or in any manner dispose of said property, or the revenues thereof, in violation of the provisions of this Ordinance, until all of the Bonds shall have been paid in full, as to both principal and interest.

E. That while any of the Bonds are outstanding, the City shall not issue any additional bonds payable from the revenues of said school building property unless the revenue pledge and lien to secure such additional bonds is made inferior and subordinate in all respects to the revenue pledge and lien securing the Bonds herein authorized, subject to the reserved right to construct other independently financed school buildings on any unimproved portion of said school site as provided in the form of said Bonds, which appears in Section 4 of this Ordinance.

F. That the City shall keep proper books and records (separate from all other records and accounts) of all transactions regarding said Bonds, that it will furnish to the original purchaser of the Bonds and to the holder of any of said Bonds, upon written request, not more than thirty days after the close of each fiscal period, complete operating and income statements as to such property, certified by the auditors for the City or for the Board, and that the City will grant to any holder or holders of at least twenty-five percent of the Bonds then outstanding the right at all reasonable times to inspect the

property and all records and accounts of the City relating thereto.

10. For the further protection of the holders of the Bonds herein authorized to be issued and the coupons attached thereto, a statutory mortgage lien upon said school building property and all improvements thereon is granted and created by KRS 162.120-290, which said statutory mortgage lien is hereby recognized and declared to be valid and binding upon the City and upon the property herein referred to and shall take effect immediately, such statutory mortgage lien being restricted to the actual building and appurtenances, subject to the terms and conditions as set out in the form of said Bonds which appears in Section 4 of this Ordinance.

Any holder of any of said Bonds may, either at law or in equity, by suit or other legal proceedings, enforce and compel the performance of all duties required by the Constitution and Statutes of Kentucky, including the charging and collection of sufficient rents, the segregation of the income and the application thereof, and may, by such action, compel the performance of all duties imposed upon the City in the operation of an adequate school system as provided by law, but only insofar as the failure to perform such duties affects the interest of any holder of the Bonds.

If there be any default in the payment of the principal of or interest on any of said Bonds, then upon the filing of suit by any holder of any of said Bonds, or any of the coupons, any court having jurisdiction of the action may appoint a Receiver to administer the property on behalf of the City and/or the Board, with power to charge and collect rents sufficient to provide for the payment of principal and interest requirements of said Bonds and to maintain the maintenance, operation, insurance and depreciation fund provided for, and to apply the income and revenues in conformity with this Ordinance and with the laws of Kentucky aforesaid.

11. The Bonds authorized to be issued hereunder shall not be entitled to priority, one over the other, regardless of the fact that they may be issued and delivered at different times.

12. The school property mentioned herein as being subject to the statutory mortgage lien and revenue pledge to secure the aforesaid issue of Bonds, is located in the Northeast Quarter of Section 3, Township 2, Range 4 East, in Calloway County, Kentucky, and more particularly described as follows:

Beginning at the Southwest corner, said corner being marked by a truck axle and being located at the intersection of the East right-of-way line of 18th Street and the North boundary line of a tract of land owned by Homeland Developers, Inc.; thence N. 3° 40' 00" W. and with the East right-of-way line of South 18th Street for a distance of 1,336.62' to an iron pipe; thence N. 85° 35' 35" E. and with the South line of the Mabel Pullen property for a distance of 1,323.34' to an iron pipe; thence S. 4° 41' 15" E. for a distance of 516.34' to an iron pipe; thence S. 4° 50' 43" E. for a distance of 821.34' to an iron pipe; thence S. 85° 38' 37" W. and with the North line of tract of land owned by Homeland Developers, Inc., for a distance of 1,339.96' to the point of beginning. Said tract contains 40.770 acres.

Being the same property acquired by the City of Murray, Kentucky, from the Board of Education of the Murray Independent School District by Deed dated June 1, 1970, and recorded in Deed Book \_\_\_\_\_ Page \_\_\_\_\_ in the office of the County Clerk of Calloway County, Kentucky.

13. Said \$1,500,000 of Bonds shall be sold at public sale immediately after legal advertising, and the Mayor and the City Clerk are hereby authorized and directed to make such advertising of a Notice of Bond Sale in such form as is approved by the Kentucky Department of Education.

Bidders shall be required to bid at least \$1,470,000 (98 percent of par) plus accrued interest, for all of said Bonds, by sealed, competitive bids, and must name an interest rate or rates, not to exceed 5 different rates, repetition of a rate not to be considered a different rate, in multiple of 1/8 percent or 1/10 of 1 percent, with no more than 2 percent differential between the highest and the lowest interest rate bid, provided, however, the net average interest cost to the City shall not exceed the maximum permissible interest rate based upon the price offered for the Bonds, which maximum permissible interest rate shall be determined in accordance with regulations of the Kentucky Department of Education as of the time of the sale. All Bonds of the same maturity shall bear the same and a single interest coupon rate from the date thereof to maturity, and interest becoming due on any interest payment date may not be represented by more than one coupon on any Bond. The Common

Council shall reserve the right to reject any and all bids and to waive any informality or irregularity in any bid.

Said bids shall be received in the office of the City Clerk until some day and hour when the Common Council is scheduled to be in session at a regular, adjourned regular, or called, special meeting, as the Mayor may determine. The Common Council shall, in a resolution accepting the successful bid, determine the exact rate or rates of interest which said Bonds shall bear, and the interest rate or rates on said Bonds shall be automatically fixed at the rate or rates set out in said successful bid accepted in said resolution, without the necessity of any further action by the Common Council fixing said rate or rates. The proceeds of the sale of said Bonds shall be used only for school buildings purposes and shall be expended only on the property described herein.

14. Upon the sale and delivery of said Bonds, the amount received from the purchaser as representing accrued interest thereon from June 1, 1970, to the date of delivery, plus an additional amount sufficient (when added to said collected accrued interest) to provide for interest which will accrue and fall due (on December 1, 1970 and on June 1, 1971) during the anticipated period required to complete the construction of the aforesaid school building, shall immediately be deposited in the Bond Fund. Thereafter, from the remaining proceeds there shall be paid all expenses incident to the authorization, sale and delivery of the Bonds, including the contractual fee of Stein Bros. & Boyce, Inc., Louisville, Kentucky, the Fiscal Agent in connection with these Bonds.

There shall next be reimbursed to the Board of Education of the Murray Independent School District; out of such proceeds the aggregate of any and all advances as said Board shall have found it necessary to expend from its own funds for Architects' fees and for amounts due to the contractors in connection with the construction of said school building in contemplation of the issuance of these Bonds, upon presentation by said Board to the City Treasurer of statements with regard thereto, in such reasonable detail and authenticated in such manner as the City Treasurer may reasonably require.

The City Treasurer is authorized to sign whatever checks, if any, are necessary to accomplish that purpose. The entire remaining proceeds shall thereafter be devoted exclusively to the payment of the costs of said new school building and appurtenances only upon the property described herein and according to the plans and specifications duly approved and filed as provided in KRS 162.160.

That pending expenditure of the proceeds then remaining, such funds shall be deposited, until needed for construction purposes, in a special construction account at the Bank of Murray, Murray, Kentucky, called the "City of Murray, Kentucky, School Construction Account."

Said Bank shall invest for the benefit of said account such portion of said account as is designated by the Chairman and/or the Secretary of the Board of Education, in United States Government obligations or in Certificates of Time Deposit of said depository bank, maturing at such time or times as to make such funds available when needed for construction purposes, and any of such funds on deposit in said bank or invested in such Certificates of Time Deposit (in excess of the amount insured by the FDIC) shall until expended, be earmarked and secured by a pledge of an equivalent amount of United States Government obligations as required by KRS 66.480. Interest earned on such investments shall be credited to said Construction Account and applied to the purposes thereof. Pending disbursement for the authorized purposes, the proceeds of said Bonds shall be subject to a first and paramount lien and charge in favor of the holder or holders of the Bonds for their further security. The money in that account shall be expended by payments made to defray the costs of construction of the proposed school building, such payments to be made upon checks drawn upon said bank by the City Treasurer, countersigned by the Chairman and/or the Secretary of said Board of Education (to be designated by a written resolution of said Board) and accompanied in duplicate, entitled "Authorization for Payment," signed by the Architects having supervision of the construction of said school building, in substantially the following form:

It is hereby certified that \_\_\_\_\_ is due the sum of \$ \_\_\_\_\_, which represents an amount duly earned by and payable to said party, its successors

or assigns, for labor work and or service under an existing contract of the City of Murray, Kentucky, relating to the construction of the Murray School Building Independent School District, financed by the issue of Murray School Building Revenue Bonds, dated June 1, 1970, and for or other services in connection therewith.

The City Treasurer is authorized to execute from time to time the necessary amounts upon said voucher or "Authorization for Payment" being countersigned by the City Treasurer, the necessity of any fundings, authorizations, or resolutions of the Council.

Such checks, so authenticated (with the authorization for Payment) attached thereto, shall be negotiable, and the aforesaid shall be authorized to pay the same, provide the same responsibility of the signatures of the City Treasurer, or resolutions of the Council.

After the Architects have been authorized to complete the construction has been completed and paid for, all then remaining in the Construction Account may be in connection with the maintenance, alteration or repair of said school building in any manner, upon the order of said representative Board of Education, or such voucher or authorization for payment being signed by said representative Board, or such surplus may be referred to the Board of Education, the joint direction of representative and the City Treasurer, whereupon said may, at the request of the Board of Education, be credited to the rental obligation of the Board for the then current rental year, under the conditions of the aforesaid Contract, Lease and Option amount may, at the request of the Board, be held as for debt service red of the Bond Fund and purchase or redeem Bonds of maturity.

15. If, for any reason, the proceeds then remaining, such funds shall be deposited, until needed for construction purposes, in a special construction account at the Bank of Murray, Murray, Kentucky, called the "City of Murray, Kentucky, School Construction Account."

Said Bank shall invest for the benefit of said account such portion of said account as is designated by the Chairman and/or the Secretary of the Board of Education, in United States Government obligations or in Certificates of Time Deposit of said depository bank, maturing at such time or times as to make such funds available when needed for construction purposes, and any of such funds on deposit in said bank or invested in such Certificates of Time Deposit (in excess of the amount insured by the FDIC) shall until expended, be earmarked and secured by a pledge of an equivalent amount of United States Government obligations as required by KRS 66.480. Interest earned on such investments shall be credited to said Construction Account and applied to the purposes thereof. Pending disbursement for the authorized purposes, the proceeds of said Bonds shall be subject to a first and paramount lien and charge in favor of the holder or holders of the Bonds for their further security. The money in that account shall be expended by payments made to defray the costs of construction of the proposed school building, such payments to be made upon checks drawn upon said bank by the City Treasurer, countersigned by the Chairman and/or the Secretary of said Board of Education (to be designated by a written resolution of said Board) and accompanied in duplicate, entitled "Authorization for Payment," signed by the Architects having supervision of the construction of said school building, in substantially the following form:

Architect

The City Treasurer is hereby authorized to execute such checks from time to time in the necessary amounts upon the aforesaid voucher or "Authorization for Payment" being executed by the Architects and presented to the City Treasurer, without the necessity of any further meetings, authorizations, ordinances or resolutions of this Common Council.

Such checks, so long as the authenticating voucher (Authorization for Payment) shall remain attached thereto, shall be fully negotiable, and the aforesaid bank shall be authorized to honor and pay the same, providing it assumes the responsibility for the validity of the signatures of said officials and further assumes the responsibility for the validity of all endorsements thereon, or if all endorsements to it are guaranteed by an FDIC bank. Upon the payment of each such check, the authenticating voucher attached thereto shall be retained by the depository bank and surrendered to the City Treasurer at the time of the final accounting as between the Treasurer and the bank (with the City Treasurer retaining the duplicate vouchers). After the Architects certify that the construction has been completed and paid for, any surplus then remaining in the Construction Account may be expended in connection with the improvement, alteration or equipping of said school building in the same manner, upon the certification of said representative of the Board of Education, without any such voucher or authorization for payment being required to be signed by said Architects or such surplus may be transferred to the Bond Fund, at the joint direction of said representative and the City Treasurer, whereupon such surplus may, at the request of said Board of Education, be credited against the rental obligation of the Board for the then current or any future rental year, under the terms and conditions of the aforesaid Contract, Lease and Option; or such amount may, at the request of said Board, be held as a reserve for debt service requirements of the Bond Fund and/or used to purchase or redeem Bonds in advance of maturity.

15. If, for any reason, the funds obtained from the sale of this Bond issue are not properly allocated, or if there is any misapplication of the proceeds, such improper allocation or misapplication shall not affect the validity of the Bonds issued in accordance with this Ordinance.

16. The provisions of this Ordinance shall constitute a contract between the City and the holders of any Bonds from time to time outstanding, and after the sale of the Bonds, no change in the provisions of this Ordinance shall be permitted while any of said Bonds remain outstanding and unpaid, other than to cure any defects or to eliminate any inconsistencies, except as expressly authorized herein, which change in any event shall not adversely affect the security of the bondholders.

17. The Common Council hereby selects and designates Clemmons and Gingles, Architects, 2110 20th Avenue South, Nashville, Tennessee, as the Architects for said new high school building, and to exercise supervision over the construction thereof, the Board of Education having indicated that said Architects are approved by said Board, as contemplated by KRS 162.160, and specifically authorizes, approves, ratifies and confirms all previous actions of said Board in connection with the advertisement, receipt and award of bids for the construction of said school building.

18. If any of the officers whose signatures or facsimile signatures appear on the Bonds or coupons cease to be such officers before delivery of the Bonds, such signatures shall nevertheless be valid for all purposes the same as if said officers had remained in office until delivery, as provided in KRS 162.190 and in KRS 61.390.

19. If any section, paragraph or clause of this Ordinance shall be held invalid, the invalidity of such section, paragraph or clause shall not affect any of the remaining provisions hereof.

20. All Ordinances, Resolutions, motions and parts thereof in conflict herewith are hereby amended or repealed to the extent of such conflict, and this Ordinance shall take effect and be in force at once."

FIVE-DAY VISIT

MOSCOW (UPI)—Astronaut Neil A. Armstrong flew to Moscow from Siberia Sunday for a five-day visit.

Armstrong and Soviet cosmonauts Georgi Beregovoi and Konstantin Feoktistov spend Friday and Saturday in the outskirts of Novosibirsk in Siberia, where many of the top Russian scientists live and work.

The U.S. astronaut leaves Moscow Friday.

HIS OWN "WAR PROTEST"—Donald Plummer, whose son was killed in Vietnam, is shown in Charleston, Mo., mailing 535 letters to members of Congress to express his indignation at the "no win" conduct of the war, at the comfort given to the enemy by peace activities in the U.S., and at congressional leaders of the liberal school. Plummer urges removal of "fellow travelers" from educational institutions, the government and the courts so the nation can see more clearly the way to end war through vigorous military action.

## Commissioner Miller on Kentucky Agriculture

by J. Robert (Bob) Miller

Promotional Program for Blue Grass Is Needed

Harvest of Kentucky's name-sake crop, "Blue Grass", is now underway, and an excellent yield is expected.

Last week's "Blue Grass Field Day" on the W. J. Walden farm in Woodford County provided an interesting and informative look at this marvelous grass. Julian Walden, a nationally-known seed producer and authority on Kentucky Blue Grass, showed the group just how productive this crop can be.

Walden not only realizes good pasture and forage from his fields of Blue Grass, but is also a major producer of seed and sod. A tour of his farm will quickly demonstrate why this grass holds a position of prominence among those who appreciate good grasses.

While Kentucky is known as the "Blue Grass State", we are not the leading producer of bluegrass seed. I feel that the economics of the industry is causing far-reaching effects upon the uses of Blue Grass.

Many Kentucky producers have quit harvesting seed because of the costs involved, plus the competition from states getting higher yield per acre. The native

varieties of Kentucky Blue Grass yield less seed per acre than some of the non-native types, but offers a heavier growth of turf and stem.

It is because of this heavy turf quality that Kentucky Blue Grass is so popular for lawns and landscaping. Homeowners or landscapers who use varieties other than native Blue Grass, might have difficulty in getting a good turf, or a turf that grows heavier and stronger through the years. Some varieties of Blue Grass have a tendency to die out after three or four years.

But rather than attempt to evaluate the different varieties of Blue Grass, I would like to see a program of action to sell our own native Kentucky Blue Grass upon its merits. I think action needs to be taken in the areas of labeling, expanded seed yields, and overall promotion.

Kentucky Blue Grass has enriched our history and brought fame to our State. This in itself makes it a crop worthy of note. Beyond all of this is the fact that it is important economically, and is a leader in lawn and turf developments.

# Virginia Dedicates Hall of Valor

This is the Hall of Valor in New Market Battlefield Park.

By SANDO BOLOGNA

Central Press Association Correspondent

NEW MARKET, Va.—The new \$1 million Hall of Valor, illustrating the story of the Civil War in Virginia, will be dedicated here on May 14 as the nation's only museum of its kind.

The building will serve also as the Visitors Center for the New Market Battlefield Park, opened in 1967 to memorialize the courage of teen-age cadets from the Virginia Military Institute who fought Union troops in 1864 on the 160-acre site.

Situated in the northern section of the picturesque Shenandoah Valley, the park is within three hours driving distance of all the major Civil War battlefields of Pennsylvania, Virginia and Maryland.

Funds for the battlefield park and the Hall of Valor were provided from a \$3 million bequest to the Virginia Military Institute by George R. Collins, a V.M.I. alumnus who died six years ago. He stipulated that the park be administered as a non-profit facility of V.M.I. "to perpetuate and maintain as a memorial for educational purposes."

Some of the major three-dimensional exhibits in the building were in Virginia's Civil War Centennial Center at Richmond from 1960 to 1965. These exhibits, as well as other memorabilia and artifacts, were turned over to the Hall of Valor after the five-year Centennial observance.

ON DISPLAY are an overview of the major military events of the war with emphasis on Virginia where 60 per cent of the battles took place and a detailed view of the Shenandoah Valley campaigns.

In the New Market-V.M.I. area, there are photos, drawings, a cadet's musket, bent by a shell fragment in battle, a cadet's uniform, and other memorabilia of the lone instance in U.S. history when schoolboy cadets, led by their teachers, engaged in combat.

IN TOURS of the battlefield and the new building, visitors will be told how 247 cadets were called from their classrooms at Lexington, marched 80 miles in four days, mostly in mud and rain, to New Market. The order for their mobilization came from Confederate Gen. John C. Beckinridge whose forces were being outnumbered by Northern units marching into the Shenandoah Valley from Spottsylvania.

On May 15, 1864, the boys (average age was 18, three were 15) saw their first artillery fire at about 11 a.m., moving in quickly from the third line of reserves. They closed ranks as one of their instructors was wounded. Then they

moved forward as a thunderstorm made a quagmire of the Bushong Farm. Some cadets lost their shoes in the mud.

While they advanced around farm buildings, Northern soldiers retreated. Then the cadets separated as they passed around the Bushong Farm House and they met at the other side of the building.

ACCORDING to a survivors' report, the boys' lines faltered and fell apart as their second commanding officer was shot down. Then they followed an order to take shelter under a rail fence. Now, they were on the frontline. They saw Union troops attacking. The cadets exchanged volley for volley for about one-half hour. Then the Union lines fell back.

The cadets followed one of their teachers in pursuit of Union soldiers, routing the artillery and creating a victory in the "fatal orchard."

Fifty-seven boys were wounded; 10 of them fatally. The cadets captured 100 prisoners and a strategic cannon.

The "Field of Lost Shoes" battle is told in a prize-winning 12-minute color motion picture, "New Market—A Field of Honor." It will be shown in a museum's theater. Until recently, it has been shown in a room of the Bushong Farm House, which has served as a temporary museum. Two rooms in the house will be furnished in mid-19th century style.

SAD MUSIC IN GEORGIA—An overturned auto in the forefront and looters helping themselves at the gasoline pumps beyond tell the story of the racial outbreak in Augusta, Ga. Six men were shot to death in one night and more than two dozen were wounded.

## Mortgage plan hit by member of Fed

By NORMAN KEMPSTER

WASHINGTON (UPI)—A member of the Federal Reserve Board says the Nixon administration's plan to increase private funds available for home loans by starting to pay off the national debt is "like running after a mirage."

Sherman J. Maisel says it would make far more sense for the government to stimulate housing directly, either through increased subsidies or direct loans.

The administration believes that if the government begins to repay the \$278.5 billion it owes to private lenders, the

money would flow into other investments, including housing. With more money available for loans, interest rates would drop.

The plan, advocated by Nixon's council of economic advisers, would require the government to collect in taxes more than it spends year after year. Backers of the proposal

concede it requires bigger surpluses than the \$1.3 billion projected for the fiscal year beginning July 1.

Maisel, who was appointed to the Federal Reserve Board by former President Lyndon B. Johnson, questioned the economic basis for the administration plan.

"Running a surplus is an indirect and inefficient method of doing what can be done more directly," he said in a speech.

He said that if the administration hopes to achieve the national goal of building 2.6 million new homes a year, "housing would have to be given an actual rather than a rhetorical position in our national spending priorities."

Administration economists believe the nation faces a shortage of private capital available for investment during the 1970s. They argue that if the government ran large surpluses in its budget, the result would be to increase the total investment pool.

Maisel commented: "I side with those who believe that such a policy is like running after a mirage, since there is a modification of Parkinson's law which states that distant budget surpluses disappear into increased expenditures or tax reductions."

"The idea that housing should be supported primarily through a large surplus neglects the traditional and most important form of support by the government, namely, inclusion in the budget," he said. "I see no logical reason why any item of high national priority should not have a place in the budget."

Maisel noted that the government already provides numerous direct and indirect subsidies for housing. If more money is needed for investment, he said, it should be provided.

"In the period of excess savings when most of our government housing programs evolved, a lack of capital support may have made sense," he said. "If, however, the problem for the next decade is a shortage of savings relative to capital goals, failure to support capital investment is nonsensical."

## Bye bye, Barbara. Bye bye, car.

Barbara will be gone for five minutes. Her car, gone forever. And some young boy is in deep trouble.

Leaving the keys in the ignition seems a small oversight to her, but it's a large temptation to an impulsive teenager. 777,800 cars were reported stolen last year... more than half of them by young offenders. And owner carelessness was most often involved.

Your new car dealer is concerned about the problem

of auto theft in our community. He knows that the facts show it's a crime of opportunity. That's why he asks Barbara—and you—to remember, hang on to your keys so you can hang on to your car. And keep a young boy from being tried away.

DISASTER IN PERU Government estimates place the death toll at 1,000 as landslides and floods block rescue efforts to reach cities devastated by an earthquake in northern Peru. Shown is one of the houses that suffered major damage in Lima, the capital. (Radiophoto)

Garden Department committee. The lawn also features pink petunias around the marble base and unusual arrangements are found in each of the many planted areas. A swimming pool is in the back surrounded by a wire fence.

Walkways of marble and rock with stepping stones covered with outdoor carpeting lead to a terrace that is surrounded by Joseph's Coat and other plants, and an area using a water fountain. The committee said everything in the yard is framed or bordered with some type of perennial or annual, and that something is blooming in every bed. Roses are found in an arbor and other places, and ivy runs on the side entrance walk and steps.

The professional judge easily counted fifty-seven different varieties of plants in the yard, according to Mrs. J. B. Wilson, June yard month committee chairman.

## Any Broken Bones? Good News For You!

Impossible to shower while wearing a cast? Not if you are using the new orthopedic cast material!

By MURIEL LEDERER

Written Especially for Central Press and This Newspaper

WHILE mechanical engineer Leroy Beightol was suffering with a broken leg some years ago, something really bothered him. "There must be a better solution than having to put up with the problems of a plaster cast," he kept thinking.

We've had so much progress in the field of medicine—transplanting of hearts, rejoining completely severed limbs—and other developments that almost seem to border on science-fiction.

However, some things haven't changed much at all. The medicine men and wound-healers of prehistoric times had to deal with fractures and dislocations from battle or hunting accidents.

We may be a little more sophisticated, but people still suffer from fractures and dislocations, though battles have escalated into wars, and "the hunt" now takes place in factories and offices instead of forests.

Primitive man discovered a splint would relieve pain, but that was about the extent of his knowledge. We've found Stone Age bones which show evidence of fractures that had healed in good position. Stone Age "surgeons" reduced fractures, at first by packing them round with earth or clay, and later by splints and bandages.

THE ANCIENT Egyptians applied crude splints to fractured limbs some 5,000 years ago. In the 4th century, B.C., Hippocrates wrote a book on fractures, the earliest treatment of orthopedic problems.

History records Greeks treated club feet by stretching and wrapping the foot firmly with bandages. These bandages were then impregnated with a white of egg solution in glycerine which hardened into a cast.

THE IDEA of using plaster of Paris for bandages instead of cumbersome splints is credited to a Flemish army surgeon in 1852. And so, for the past 100 years, plaster of Paris has been about the only material used for casts in setting fractures until today.

After five years of basic research, Beightol's search for a better solution has produced a better cast material, called Lightcast.

This new orthopedic cast material forms a hard, lightweight cast. Its strong, moisture-resistant and allows air circulation. The completed cast is about one-third the weight of an old plaster cast and gives more comfort and mobility to the patient.

Automatic camera photo shows robber believed to be Pavia leaving branch of the Bankers Trust Co., New York.

20 BANK ROBBERIES—Raphael Pavia, 44, a hotel bartender in New York, waves handcuffs and emotes for the camera after his arrest about an hour after robbery of a Bankers Trust Co. branch on Park Avenue in Manhattan. He is believed to have committed 20 bank robberies in 35 days. "Dashing Dan," the police call the Tunisian native because of his "Thank you very much" to bank tellers.

move to prohibit any future military operations in Cambodia, the President issued a strong plea for support of his "program for peace."

"We have a program for peace—and the greater the support the administration receives in its efforts, the greater the opportunity to win the just peace we all desire," he said.

Using film clips of the captured war materials to illustrate his point, Nixon contended the supplies seized in Cambodia "nearly equal what we captured in all of Vietnam last year."

He said the Cambodian operations, the object of "an unprecedented barrage of criticism," not only had eliminated an immediate danger to American forces in Vietnam, but had won precious time for the South Vietnamese to train for the job of protecting themselves and "insured the continuance and success of our withdrawal program."

Nixon issued another plea to Hanoi for meaningful negotiations. "The door to a negotiated peace remains wide open," he said. "Every offer we have made at the conference table,

publicly or privately, I herewith reaffirm."

He coupled this with a warning that if North Vietnam increases its attacks he will "take strong and effective measures to deal with that situation."

### WORKS FOR DOCTORATE

SALT LAKE CITY (UPI)—It wasn't exactly what a student of electrical engineering would study for, but searching through the city dump was what J. Mark Baird had to do before he could collect his doctorate degree from the University of Utah.

The 154-page dissertation he wrote in order to qualify for the degree was mistakenly thrown out with the trash at the university printing office, which was printing the final work.

We holler at Lady the inside dog to go outside yesterday morning and we opened the back door for her. It was raining and she stands there in the open door just looking. We keep telling her to go on but she refuses to budge. She hates to get wet.

We finally reached a compromise. We closed the door and let her out into the carport where it was not raining.

### IN DIRECT ACTION

VAN NUYS, Calif. (UPI)—Dick Condon, candidate for the Republican nomination in the 22nd state Senate District, believes a lot of voters are disgusted with candidates "who sit around on their rear ends."

Condon said in an announcement Wednesday he had indirectly taken action on the matter:

"I can report to the voters of the 22nd state Senate District that I won't be able to do that for at least another week and a half."

Condon was treated for minor wounds at Valley Doctors Hospital and released in good condition after he was attacked by two large dogs while campaigning door to door.

## Paducah Dance Team Waltzes Off With Mid-America Title

The Jack Lloyd Paducah team of amateur and professional dancers won their third consecutive title in the annual Mid-American Ballroom Dancing Championship finals, in St. Louis, Mo.

The event is sponsored by the Mid-American Federation of Ballroom Dancing Schools for the benefit of the Easter Seal Society for Crippled Children and Adults.

More than 100 finalists from Michigan, Ohio, Indiana, Illinois, Missouri, Kentucky and Tennessee participated in 186 different contests to determine the champions of Fox Trot, Waltz, Swing, Rhumba, Tango, Samba and Cha-Cha in seven categories of competition.

Paducah won 11 out of 13 overall trophies and captured 48 of 58 first place individual dance championships.

Members of the Paducah team to win the 11 overall championships were Carol Moon and Robert Davis of Paducah, Division I; Audrey Warner of Paducah, Division II; Barbara Thomas of

Paducah, Division III; Charlene Shaw of La Center, and Dr. Jack Giannini of Princeton, Division IV; Allie Burnley of Paducah, Women's Adult, and Judy Parker of Murray, the top High Silver Division. Judy Parker and Allie Burnley won their third consecutive titles and Dr. Giannini, his second.

Benny Harper and Ruth Johnson, both of Paducah, won the top first place professional awards. Fern Logeman and

Chris Orsborn, also of Paducah, captured second place honors in the professional division for women and men.

Other first place winners were Debbie Davis, Randall Chandler, James Warner, Norm Shelby, Mike Shelby and Ell Shaw.

The remainder of the team included Carmen Cloyd, Clara Athorn, Teresa Ettensohn, Charles Phillips, Clete Ettensohn, M. H. Cloyd and Robert Moon, all of Paducah.

The final results gave Paducah 59 points; St. Louis, eight points; Toledo, Ohio, four points; Memphis, Tenn., one point; and all other teams, none. The margin of victory was 51 points.

### Mrs. Ora Grubbs Rites Scheduled

BENTON, Ky., June 3—Funeral services for Mrs. Ora Grubbs, 82, will be conducted at 3 p.m. Thursday at the Linn Funeral Home. Emmett Clark will officiate and burial will be in Pace Cemetery at Hardin.

Mrs. Grubbs, a member of Hardin Church of Christ, died at 8 a.m. Tuesday in the Long Term Care Unit at Benton Municipal Hospital. A resident of Hardin, she was the widow of Will Grubbs.

"I used to stand up and say the world was a miserable place. Then I would sit down and do nothing about it."

Let's face it.

All is not perfect in this land of ours.

America has taken some lumps and quite frankly it hurts.

But maybe we should step back and take a long hard look . . . take inventory of how we are and how we got here.

Maybe we should inspect our brighter side as well as some of our ills.

And maybe, just maybe, we'll come out thinking this country's good side far overshadows its bad.

Then maybe we'll start to do something to make it better.

Rather than knocking it, which ends up making it worse.

Now comes the big question. What can you do? You're only one little individual among over 200 million people. How can you help?

For one thing, you might think about investing in your country. Showing your faith in its future.

That's exactly what you do when you sign up to buy U. S. Savings Bonds. You're simply buying a share in America.

You're also socking away some money for yourself.

Of course, Savings Bonds are not going to cure all our headaches. But they'll help to provide the economic strength we'll need for the job.

And at the same time, they can cure a lot of your financial headaches in the years to come.

Any way you look at it, they make good sense.

And that's just what we need in this country right now.
